Top 10 Reasons To Outsource Your Payroll

NEBS PAYROLL SERVICE Experts
Can Take Care Of Your Payroll Needs

1. Confidence

Letting payroll experts deal with your payroll ensures that all regulations and filings are adhered to.

2. Assurance

You will never worry about paying penalties for remitting your governmental source remittances late.

3. Affordable

An outsourced payroll service can be an affordable option for every business. Look for a flexible service plan that is designed to grow with you so you pay for only the payroll services you need. Consider the 'hidden' costs of running your payroll internally – software updates, staffing, cheque costs, printing costs, etc.

4. Efficient

You don't need to worry about staffing, training, vacation coverage and other internal issues when you use an efficient, outsourced payroll service.

5. Worry-Free

An outsourced payroll service will keep up to date on the ever-changing tax rules and regulations so you don't have to.

6. Secure

By using a web hosted payroll service you can be sure that your data is stored in a secure environment without risk of hardware or software failure.

7. Privacy

It can be embarrassing and detrimental to morale if the wrong eyes fall on the wrong payroll information. By outsourcing your payroll, sensitive and confidential payroll data is calculated off-site, so there's no chance of breach in confidentiality.

8. Accessible

With an outsourced payroll service all of your payroll information is always available in concise, easy-to-understand formats. You even have access to your electronic payroll data, fully downloadable into Microsoft Excel, for your convenience.

9. Flexible

As your business grows, there is no need to change solutions or hire additional staff to manage your payroll. An outsourced payroll service is easily scalable to meet your changing needs

10. Trust

Getting pay cheques out on time isn't a luxury; it's an expected part of running a business. An outsourced payroll service keeps this top of mind so you don't have to worry about staff fitting it in to their already busy day.

When you are ready to look at an outsourced payroll service please give us a call at 1 866 772 9932 or visit www.PAYweb.ca. We would be happy to prepare a no obligation quote specifically for your business.
